

MR16

Premium, GU10 Base

Key Features & Benefits

The **MR16 GU10** base series LED light integrates a set of COB LED light sources into a **MR16 GU10 base tracking or cabin** lighting. This product is the ideal solution for indoor or outdoor lighting applications such as landscape lighting, deck lighting to reading lights and decorative tracking lighting fixtures. This bulb is highly versatile and offers significant energy savings and environmentally friendly. The light output is with beam selections of 18°, 36° and 60° which is perfect for spot shooting lighting applications.

Technical Specification:

Model Name	JQ-GU10-A08K27M[CCT:2700K]-18/36/60 JQ-GU10-A08K30M[CCT:3000K]-18/36/60 JQ-GU10-A08K40M[CCT:4000K]-36/60
Product Photo	
Halogen Replacement	60 Watt
Operating Voltage:	120 VAC
Power consumption:	8 Watt
Dimmable:	Yes
Dimensions:	1.83"x1.93"D
CRI:	80 ~ 91
CCT Option:	2700K,3000K,4000K
Luminous Flux:	600 lm
Operating Temperature:	-20° C - +50° C
Storage Temperature:	-30° C - +60° C
Lens Bin Angle Option:	36° (Standard); 18°, 60°[option]
IP Rating	IP53
Safety Certification:	ETL, FCC Compliance
Rated Lifespan:	>25,000hrs.

Notes: Wattage +/- 10%; Lumen Values +/- 5Lms. CRI +/- 5% ; Dimmable* fully tested with LUTRON® DVCL, DVEL etc.
