

BEACON DCB

DESCRIPTION

The Brilliance LED Beacon Double Contact Bayonet (DCB) is a subcompact LED that utilizes the Epistar chipset and features Brilliance LED's multi-directional beam pattern. This DCB is energy efficient and water resistant, designed specifically for landscape retrofit application, and ideal for pathway lighting fixtures, wall washing, and hanging fixtures.

FEATURES

- Ceramic technology
- Dimmable with most magnetic transformers

Part Number: **BRI-BEACON-DCB-XXXX**
